

Sharing information and integrating services: Collaborative Practice

STAFF SELF-ASSESSMENT TOOL

Loddon's Commitment to Supporting Families

Our shared core competencies

For staff working directly with children, young people and families (tier 1)

In 2017, the Loddon Children & Youth Area Partnership (the Partnership) identified four 'pillars of competency' that are essential in supporting vulnerable children, young people and families.

The purpose of this tool is to:

- assist staff working directly with children, young people and/or their families (90% or more of the time) to assess levels of competence in regards to **sharing information and integrating services: collaborative practice**
- facilitate discussions between staff and managers about professional development and training needs in relation to this competency
- provide the basis for self-reflection and planning

Information sharing and integrated services: collaborative practice

This competency refers to a commitment to the appropriate and open sharing of information and coordination of services to prevent harm and deliver optimum support. This is increasingly referred to as 'collaborative practice'. This competency means being able to build trusted relations with other organisations, develop shared goals and consistent language, and share information appropriately in the best interests of children, young people and families.

Check the appropriate box:

- I have completed training in this competency and know how to apply it in my work
- I have completed training in this competency but need to update my learning
- I have not completed training in this competency
- Yes No I have a good understanding of the organisation's rationale for building this competency

For each statement below check the appropriate box:
